Hi Frank,

Under the circumstances, we can certainly provide an extension for another two weeks (or August 14) to respond. I am glad to see that you are back at work; I hope that you are back to at least 100%. My best, John

Subject: Environmental Monitoring Letter

John,

I am humbly requesting for an extension for the response due to some unforeseen health issues that required me to have surgery. I just returned back to work on 07/23/2018. In returning I contacted Daniel Haag the On-Scene Coordinator of U.S. EPA, Region 5 Superfund Emergency Response Branch to help me with the request identified in the response concerning site closure letters and No Further Action Letters (NFA). As always, Daniel and his team has and continues to be a great source of information and they have been doing an excellent job in remediating Zone 1, 2 and 3. With Daniel and his team's efforts I'll be able to complete the response with an approval of the extension. I am asking for an extension up till August 14, 2018. I truly appreciate your anticipated consent. If you need any further information please contact me at your discretion.

Thank you!

Frank Rivera
